

# CARTRIDGES

## Technology & Quality

YKC Plastik<sup>®</sup> is the first and only company in the world that manufactures the cartridges with transparent display and multi-layered structure. In all cartridges produced by YKC Plastik<sup>®</sup>, the chemical-specific raw material to be used, dimensions and wall thicknesses can be chosen by the customer.

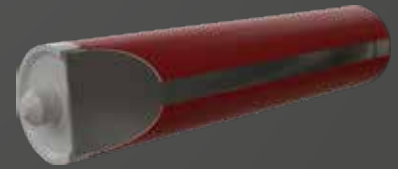

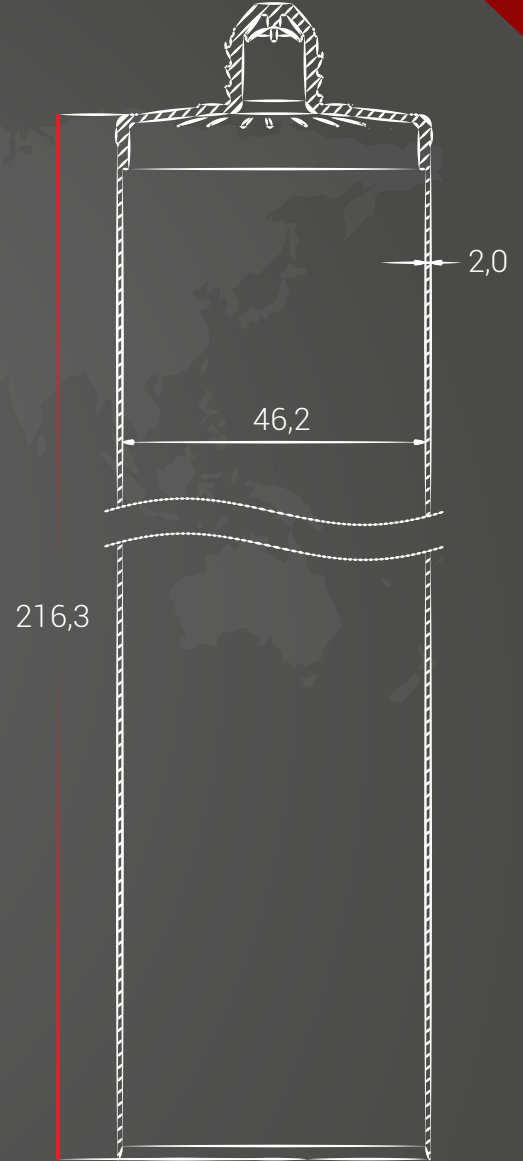

## PRODUCT: S 310 S 200

## Technical Specifications

|              |                                        |
|--------------|----------------------------------------|
| Product Code | S 310 S                                |
| Material     | HDPE                                   |
| Volume       | 310 ml                                 |
| Thickness    | 2,0 mm                                 |
| Weight       | 64 gr                                  |
| Color        | White (Different colors are available) |
| Printing     | Label, Offset                          |
| Packaging    | 140 unit/box                           |

| Cartridge<br>(280ml-310ml) |                           | Pallet Loading        |                         |                      |                       | Manuel Loading          |                      |       |
